Hi Julie,  
Both Rebecca Pontes and Sonja Farak are interested in attending the GC/MS seminar 4/27/11.

Jim

**Subject:** Restek GC/MS training  
**Importance:** High

The laboratory has contracted with Restek to offer a 1 day GC/MS training onsite (Jamaica Plain) for 10 chemists using Coverdell grant funds. The intent of the training is to provide a strong theoretical background for analysts as we move towards 1 chemist analyzing all items in a case from start to finish. Attached are the bios of the two presenters for this course. The training will be all day on April 27<sup>th</sup> in the SLI Auditorium. I know this will be a challenge with court schedules but chemists who will be attending should block this day off on the calendar as unavailable for courtroom testimony.

Please send me a list of names of who should attend by Wednesday, March 9<sup>th</sup>. I will review and prioritize if necessary.

**Analysts with little/no GC/MS experience should be given priority!**
